

*Think & Feel?*

May mix up calls from one another (real or not?)

Thinks whether upcoming calls are real or not

*Say & Do?*

Expecting the app to be reliable (requiring internet may make the app unreliable)

Having to click/tap too many times may also make it a bad experience (wakephone > answercall)

Must be active on the app at all times for calls and learn it at the same time

*Pain*
